## REFERENCE LIST

The reference materials listed below should be helpful to candidates in preparing for this examination. These materials may NOT contain all of the information needed to be competent in this trade or to pass the examination. We try to keep this reference list current and consisting of industry-standard materials.

However, due to circumstances beyond our control, some of these references may go out of print or be unavailable. Please contact the publisher, a bookstore, a book distributor, or library for these or similar reference materials. If any reference is out of print or unavailable, your local library may be able to obtain these references for your use through the services of Inter-Library Loan. This reference list is just a representative sample of the available materials that contain the necessary information. There are a number of other similar books on the market containing similar information.
